

Kitchen installation work party 2-3 June

Last Updated Tuesday, 22 May 2012 23:03

Please note this work party is full. If you need any work party days, please consider going up Opening Weekend to get the Lodge ready for the season.

With the new kitchen cabinets being installed in the next week and the tiling and floor coverings after that, the final piece is the actual installation of the kitchen appliances themselves. This is the major focus of the work party scheduled for 2nd / 3rd June. If you want to be a part of an historic work party upgrading a major component of the Lodge, please contact Stu Watson to confirm your attendance. More details on the work parties is [here](#) .

This is the weekend before Opening Weekend - the Opening Weekend work party will still go ahead and that work party will focus on preparing the Lodge for the ski season as per normal.
