

Following the tragedy at Mt. Buller, the Club wishes to remind all members and guests to be vigilant with your children and to be very aware of the potential dangers of falling snow from rooftops. Especially around the front of the Lodge. To minimise risk to members and guests, if returning from Big D, all members and guests are requested to ski between the Lodge and Aardvark's Lodge and come around to enter the Lodge from the spa side. Click "Read more.." below to see the new map (from the recent newsletter) and a photo of the new ski room entry door. The wire fence along the edge is to ensure all members and guests come down the correct, southern side of the Lodge, not the northern side.
